

REMARKS

The undersigned attorney would like to thank the examiner for the many courtesies extended during a telephone interview today. During this interview the examiner agreed that he would allow claims 6-10 and 22, if claim 22, upon which claims 8-10 depend directly or indirectly, was amended to include the statement of the silicone oil and other silicone containing residue being converted. As was discussed during the interview, the amendment does not constitute new matter. As was pointed out in the previous amendment, support for the language and reasoning is found in the specification at page 7, line 13, through page 8, line 4.

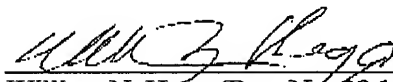

If the Examiner finds the application to be in condition for allowance and continues in his requirement for restriction, the Examiner is authorized to cancel the withdrawn claims 12-18 by Examiner's amendment. Applicants reserve the right to include these claims in a continuing application.

In view of the above, it is believed that each of the claims now in the application is distinguishable one from the other and over the prior art. Therefore, reconsideration and allowance of the claims is respectfully requested.

Respectfully submitted,

Date:

8/30/04
